## **Introduction**

Political as well as a Christian development is most wanted in the U.K.

The problems are severe, but the possibilities are also many.

As a political/metaphysical philosopher it has been an esteemed honour to contribute to the development of a renewed Anglican Church and a renewed conservative perspective on politics.

Nonetheless, to enhance and solidify this process we need to get deeper into the subjects, and start finding new ideas together.

This is why I take this initiative. To help England, and make a frame around some of all the issues that need to be tackled in a humane way.

## **Method**

The initiative comprises of a number of lectures on different issues. The lectures would be from one to two hours, and would also include a small workshop.

## **Agenda**

### **1. Strategy Anglican communion**

- How do we tackle the crisis of the church?
- Can we find new methods in reviving and solidifying the church?
- Can we find inspiration in Christian teachings in the work we do today?
- What is the landscape that we have to operate in?

### **2. Conservative politics, what are the challenges, and how do we resolve them?**

- How do we make a stronger Britain after Brexit?

- What is a modern/humanistic nationalism in the 21 century?
- Where are the challenges to the current political system, and how do we solve them?
- How do we tackle migration in a firm but humane way?
- How do we tackle islamic extremism?

### **3. How does Britain support an international peace effort worldwide?**

- The round table of equals
- Who are the natural allies today?
- What are the values Britain should promote worldwide?

### **4. Family**

- How do we understand the family as a cornerstone of society today?
- What is the historical and religious roots of the family as an institution?
- How do we support fragile families?

### **5. National wealth**

- How do we ensure a productive and prosperous Britain?
- The balance between free trade and loyalty of the producers
- Adam Smith and the sentiment of consciousness

### **6. Metaphysics**

- How do we tackle the challenge of physics in relation to metaphysics?
  - Niels Bohr
  - Newton
  - Eistein
  - Quantum physics in relation to metaphysics
- What are the modern metaphysical questions asked, and how do we answer them?
- Can we prove the existence of G-d?
